

Making New Plants

How Flowering Plants Reproduce

Concept Overview

LIVING WORLD

About the overview

The diagram below shows the science concepts outlined in this book and in the level 1–2 companion book, *Flowers, Fruits, and Seeds*. The arrows show the links between concepts and how they might build in sequence. A “big idea” shows how a fully developed understanding of the concepts might look. Such an understanding might not be achieved until level 7 or 8. The big ideas are included to help you to build appropriate concepts with your children, whatever their age.
